Optional Institution Under Name

## Introduction

Here is an itemised list:

- The first item.
- The second item.
- The third item.

## A Diagram

Here is a diagram:

## Fundamental Theorem of Calculus

If  $f$  is continuous on the closed interval  $[a, b]$  and  $F$  is the indefinite integral of  $f$  on  $[a, b]$ , then

$$\int_a^b f(x) \, dx = F(b) - F(a). \tag{1}$$

## Conclusion

This is a great poster format!

Main finding goes here,  
translated into plain English.  
Emphasize the important words.

Here you can add **supplementary material**. For instance, a new diagram:
